- **Audio**
 - Set master volume
 - Set music volume
 - Set SFX volume
 - Set dialogue volume

Connectivity

Connect to Steam and/or Facebook or select Offline mode.

Save & Quit

Save and quit to title or desktop.

HOW TO CONTROL THE GAME

Dreamfall Chapters fully supports controllers utilizing the official Xbox 360 Controller driver in addition to keyboard and mouse.

The game's input system changes controller-scheme in real-time based on the last keystroke. To switch from keyboard to controller, simply press a button on your connected controller, and vice versa to switch from controller to keyboard. Please be aware that the controller must be connected *before* you open the game in order to be recognized.

For Mac users, we recommend using the "Tattie Bogle" driver with an official Xbox 360 Controller.

Currently there are no support for controllers on Linux systems.

Keyboard/mouse	Xbox Controller	
WASD	Left analogue stick	Movement
Shift	LT	Run
Tab	D-pad up	Inventory
G	Y	Goals window
J	Back	Journal window
Space	B	Skip
F	X	Track objects of interest
V	RT	Hold to zoom
Mouse wheel	Right analogue stick click	Change zoom level
ESC	Start	Pause/Game options

Use the WASD keys or the arrow keys to walk around. Hold the SHIFT key to run. The mouse controls your camera. You can also move your character with the mouse by holding down the right mouse button, or both mouse buttons to run.

Click the left mouse button to interact with items and characters in the game.

Open your inventory with TAB or by clicking the third mouse button (scroll wheel).

You can open your goals window with the G key, and the character journal with J.

Press F to track objects of interest.

Press the ESC key to pause the game and open the settings window, and press SPACE to skip cut-scenes and dialogue.

SOCIAL FEATURES

Dreamfall Chapters tracks the choices you make in the game. No private data is being tracked or submitted to our servers. Your choices are continuously tracked as the game progresses, and by connecting your game to Facebook and/or Steam, you will be able to see what choices your friends are making throughout the game.

If you don't want your progress to be registered, you can permanently wipe data and disable any online functionality by toggling "Offline Mode" in the game settings.
Please note that this also restricts your ability to see other people's choices.

SPECIAL EDITION DLC

If you have purchased the Special Edition, you will receive the extra content automatically once it is available. You can find the downloads by right-clicking on Dreamfall Chapters in your Steam Library, select Properties, select the tab Local Files and clicking on Browse Local Files.

SUPPORT

Please visit our forums for the official [Dreamfall Chapters FAQ](#) or contact us at support@redthreadgames.com if you need support.
