Game modes

LEAGUES
Finish the 3 leagues to unlock new circuits, new difficulty levels and many other surprises!

FREE TRACKS
Play solo or multiplayer, complete the 4 laps and finish first to win the game! Use bonus to your advantage and avoid creatures.

EQUILIBIUM
Finish the circuit as fast as you can!
Each fall give you a 5 seconds penality!

JUMP
Take a run up and take some BOOST bonus to make the longest jump!

Bonus

BOOST

Type : Action bonus
Description : Using the boost will give you a powerful acceleration.

LEVITATION

Type : Action bonus
Description : All the opponent cars won't land for 2 seconds, meanwhile they won't be able to control their direction.
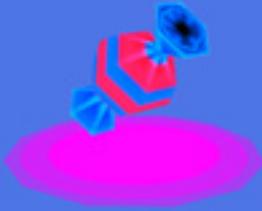

MINES

Type : Action bonus
Description : Drop the mines behind you and they will be on the way of the opponent cars.

INVISIBILITY

Type : Instant bonus
Description : With this slightly unusual bonus you won't be seen by the opponent cars ... neither by you!

DARK SPIRALE

Type : Instant bonus
Description : A black spiral will reduce your visibility for a few seconds.

MASTER

Type : Instant bonus
Description : If you take this bonus, one of the miniature cars will be chosen at random to be the master.

Being the Master means that every car that is near you, will be expulsed with a powerful electric flash.

About Frogames

Launched in Reims France during 2005, Frogames is in the capable hands of three motivated and fun-loving people who are environmentally aware.
Meet The Team:
- Christophe, Artist and Co-Founder
- Mathieu, Programmer and Co-Founder
- Sabine, Promotion, Marketing and Communication.

We are Indie Game Developers because our skills and ideas are not subject to the pressures of outside financers, our projects are self-founded, self-published, and limited only by our imagination. Frogames lends its cartoonish and colorful touch to the gaming industry in two ways:
1. We provide licensable technical resources that speed up game production so that other developers can savor the freedom of creating world-class games quickly and efficiently. Discover how our tools and technology can make a difference in your gaming software development cycle by visiting Frogames at www.frogames.net.
2. We create and market our cool and innovative video games that are fun to play and, dare we say, slightly addictive. See what we mean by visiting Frogames at www.frogames.com.

Support

The game crash or don't even start.
Check that your computer meets the minimum requirements to run MiniOne Racing. Make sure that you have the latest video card drivers installed. Check our website to find if a new version is available.

System requirements
- 1 GHz CPU
- 256 MB memory
- 32 MB of video memory
- A broadband connection to play online
- Windows XP/Vista
- Mac OS X 10.3 or greater

Can't play online? Can't connect to game servers or can't host a multiplayers game?
Check if you are using a firewall and (or) a NAT/router. If so you may need to configure them proprely to play MiniOne Racing over Internet. MiniOne Racing uses ports 28000 through 28002. If you're behind a firewall you'll need to open this ports (TCP and UDP). If you are using a router you will need to configure it to forward ports 28000-28002 to your computer.
